

# Madonna di Costantinopoli

The convent emerges in the territory of Spoleto, on a hill which overlooks the valley. It is surrounded by a century old park immersed in the nature of the most uncontaminated area of Umbria: the Valnerina. The building, which has been a private house since 1880, has maintained its original

fascination and atmosphere. This is due to the very long and precious restoration to which the owners have been devoted for three generations. Each room is different, each one is unique for its elegant furnishings and for the attention paid to detail, whilst original names have been maintained.
